Brief description for updating data

The user will be able to select "update data" from the application's main screen. The app will then show a custom login screen. After the user enters the username and password, the application will login to the mycsuf website and update relevant entries.

Detailed Description

1. Select update data icon
2. Login
    2.a. Enter Username

    2.b. Enter Password

    2.c. Select "Enter"

3. Update data
    3.a. Download class schedule

    3.b. Download calendar of events

Brief Description of Calendar of events

The user will select the icon for the calendar from the application main page. The main calendar will then be shown with events listed in chronological order. The user can then click on a specific event to see more detailed information such as a brief summary, location, and time.

Detailed Description of Calendar of events

1. Select Calendar Icon
2. List of events appears
3. Select event
    3.a. Display detailed event info including time, location, description

    3.b. Return to main calendar

Brief Description

The Student will be able to view their current class schedule. Each class will show the room number, class times and days, as well as professor. When the student taps on the classroom a map will populate with the current location of the student as well as the location of the building.

Step-by-step Description

1. Log in to the app.
   1.1. Enter your username
   1.2. Enter your password
   1.3. Tap login
2. Tap on the Schedule tab located along the bottom of the screen.
3. Schedule view appears on the screen with the current class schedule
4. Scroll through classes
   4.1. Tap on a class to view a map of the building location
   4.2. Tap the locate me button to see where you are on the map relative to the building
5. Tap the back button to go back to schedule view.

Brief Description

Todo-List enables you to create different categories to allow you to keep each category organized to an area of todo's. It will allow for each category to have as many todo's as you would like each with the same structure.

Step-by-Step description

1. Create a new Category.
   a. Enter category title
   b. Pick a color that you want to be able to distinguish between each one.
2. Select a Category you would like to use.
   a. Create a todo item that you need to complete
      i. Add title
      ii. Add date
      iii. Add Alert
      iv. Add a note
      v. Add a priority
      vi. Save it.
   b. Select a todo item you would like to see information on.
      i. Edit the information if you would like
      ii. Save it
   c. Mark a todo as done and it will be removed from the table
   d. Remove todo's that do not need to be complete anymore
